VISA MasterCard DISCOVER

The Town has officially partnered with two additional companies to offer consumers options for convenient mobile payment when parking in Hanover. These new partnerships with AMP Park and PayByPhone have been launched to complement our existing partnership with ParkMobile. You will see these new signs being installed throughout Town, as well as new decals on all the parking kiosks and meters.

Each company offers consumers different options, as well as differing convenience fees per transaction. The Town of Hanover does not receive any revenue from the convenience fees charged by these companies. Apps for all three options can be downloaded from the Apple App Store or Google Play, or transactions can be made through each company's website. Consumers can also continue to pay at the parking kiosks or meters, aside from the two zones that are mobile pay only, with no additional fees added to their transactions.

**ParkMobile**
