

287 River Rd Norwich, VT 05055 \*

~ An Equal Opportunity Employer ~

## **Traffic Delays**

We will be completing installation of new water main across Maple Street into Downing Road at the intersection (Downing St/Maple Street Intersection) on Monday June 2<sup>nd</sup> and Tuesday June 3<sup>rd</sup> between 7 am and 7 pm. Please expect long delays.

We recommend if you need to leave throughout the day to park elsewhere while we excavate the trench across the road and install the new water main. This area limits our ability to maintain one lane of traffic and there will be several hours where you will not be able to enter or exit.

The Town will provide parking passes if requested at the Town Lot on Maple Street. If you wish to request a parking pass, please contact Michael Schibuola or Christopher Swain 603-640-3220.

For project information please visit the Town of Hanover Website [Hanovernh.org](http://Hanovernh.org).
