

COMMUNITY NURSE SERVICES

Our COMMUNITY NURSE works with you, your family, and other health professionals and caregivers to provide coordinated health care that addresses your physical, emotional, and social needs. Our goal is to help Hanover residents live safely and as independently as possible at home and in their community.

There is no fee for these services, which include:

- Coordinating your care with your primary physician(s) and other community agencies and resources.
- Providing health education, resource information, and referrals as needed.
- Serving as your advocate for your medical needs.
- Making home visits to assess your current health care needs.
- Clarifying and helping you work towards personal health and lifestyle goals.
- Sharing care plans with family members, if desired.
- Assisting in scheduling medical appointments and helping ensure you can attend and effectively participate in visits with health care providers.
- Assisting in helping you obtain medical equipment.
- Assisting with questions about insurance, advance directives, and long-term care planning.
